## Editing and proofreading

I rely on Susan Snowden of Snowden Editorial Services ([snowdeneditorial.com](http://snowdeneditorial.com)) for the editing and proofreading of my personal projects and those of my clients.

**Editing** involves correcting errors in spelling, capitalization, punctuation, grammar, and syntax.

**Proofreading** entails proofing galleys, copy that has been line edited and typeset.

Below is the recommendation that my co-author (and wife) and I gave Susan after she'd completed editing and proofreading our most recent book:

*As writers, we have confidence in our skills, yet it's always reassuring to have Susan's masterful and experienced eyes on our project before it goes out into the world. Susan not only brings an eye for detail to her editing; she also helps us create more coherence and clarity in our content. In addition, Susan teaches us as she edits; our writing consistently improves each time we collaborate with her. It's also a pleasure to work with her. She is prompt, impeccable, and reliable. Plus there are never any surprises such as additional fees at the end of a project. You may find an editor who charges less than Susan, but the relationship we've built with her over the years is priceless. We both highly recommend her to writers who want to get the best results possible for their books, articles, or other prose.*
